Re: Docket # 48P-0151-00 NOV -3 P2:53
48P-0151/CPI

To Whom It May Concern:

I believe it's time to treat the farm animals we use for food humanely. Downed animals should not be made to suffer without food, water or care.

I protest the methods of cruelty used on these animals.

It seems too many people in our nation are becoming more unfeeling and uncaring in too many ways.

I write this letter in hopes that the human can be put back into humanity and visa versa. It's time to CARE

Sincerely, Anna M. Vozar
